EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Scherer on 12/2/08.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1, Page 2, Line 8, "fluid sealing" has been amended to --sealing fluid--.

Claim 1, Page 2, Line 17, --of the plurality of projections-- has been added after "one projection" and --of the plurality of projections-- has been added after "adjacent projection".

Claim 1, Page 3, Line 2, "having an apex" has been amended to --opening and--.

Claim 1, Page 3, Line 3, "an anti-sealing" has been amended to --said sealing--.

Claim 1, Page 3, Line 3, "extending in a direction opposite to said sealing" has been amended to --having an apex pointing toward an anti-sealing--.

Claim 2, Page 3, Line 14, "a projection" has been amended to --a plurality of projections--.

Claim 2, Page 4, Line 3, --of the plurality of projections-- has been added after "one projection" and --of the plurality of projections-- has been added after "adjacent projection".

2. The following is an examiner's statement of reasons for allowance: The closest prior art, Hadaway (US Patent No. 3,923,315), discloses the invention substantially as claimed in claim 1. However, the Hadaway reference fails to explicitly disclose a plurality of projections including and extending at a same level between a set of side surfaces of each of the plurality of projections and a recess between the plurality of projections being triangular in shape opening down towards the seal tip end with the apex pointing toward an anti-sealing fluid side. The closest prior art, Sink (US Patent No. 5,511,886), discloses the invention substantially as claimed in claim 2. However, the Sink reference fails to explicitly disclose a plurality of projections including and extending at a same level between a set of side surfaces of each of the plurality of projections and a recess between the plurality of projections being triangular in shape having an apex pointing down towards the seal tip end and towards an anti-sealing fluid side. There is no motivation, absent the applicant's own disclosure, to modify the either the Hadaway reference or Sink reference in the manner required by the claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
